

Introducing myEpsonPrinter.com

A Web Based Printer Information and Management System for Epson Stylus® Pro Printers.

EPSON
EXCEED YOUR VISION

Epson America, Inc. is pleased to announce the public beta of myEpsonPrinter.com, a unique Web-based printer information and management system. Now, owners of Epson Stylus Pro X880 series and Epson Stylus Pro GS6000 printers can manage and monitor their printer virtually in real-time. Key features include ink tracking and media consumption, management of printers at remote locations, robust report generation, access to intelligent technical support, and management of end users' overall investment in their Epson printers.

The technology that customers need to communicate with myEpsonPrinter.com is built directly into each of the Epson Stylus Pro printers described above. This advanced and completely secure interface helps business owners accurately monitor how they are utilizing their Epson Stylus Pro series printers. And, it offers easy, online access to detailed information and reports. With myEpsonPrinter.com, customers can:

- Keep track of ink and paper usage across an organization, regardless of where each printer is located. (Now, end users will know ahead of time when they need to buy more ink.)
- Keep track of jobs printed on each Epson Stylus Pro printer, with information about ink usage, media type, file name and much more.
- Estimate how much a production print, mockup or proof costs to create.
- Track printer usage within a company to determine which groups or individuals are making the most efficient use of their Epson Stylus Pro series printer.
- Get easy access to intelligent technical support all in one place.
- Create detailed reports on all areas of printer usage.
- Be informed of errors or job progress while away from the printer.

Epson has a reputation of collaborating with professionals to develop products that meet and exceed their expectations. The myEpsonPrinter.com printer information and management system is no different, and it is available today as public beta for all Epson Stylus Pro X880 series printers and the Epson Stylus Pro GS6000 printer. Furthermore, this service is free during the beta period. For more information on how to sign up and details on technical requirements, please visit www.myEpsonPrinter.com.
